

Hanging Hearts

Supplies:

- tissue paper hearts (pre cut for younger grades)
- Clear sticky-backed plastic (contact paper)
- black, red, white, or pink construction paper in pre cut large hearts for borders
- ribbon for hanging

How to:

1. Start with a rectangular piece of clear contact paper close to the size, but larger than the pre cut heart border.
2. Decorate the sticky side of the paper with the tissue paper hearts. Adhere the large construction paper heart to the sticky side of the contact paper.
3. Adhere another rectangular piece of contact paper to the back of the first, sticky sides touching.
4. Trim the contact paper so that you can only see the construction paper heart.
5. Tape a ribbon loop to the back of the heart so that it will hang.
